

# Payments built for global businesses

## Optimal payments performance

Increase conversion and unlock revenue opportunities with transparent payments data and actionable insights from regional experts. Achieve higher acceptance globally through local acquiring hubs.

## World-leading customer experience

Streamline your checkout experience for fewer abandoned shopping carts and failed payments. Offer the most popular payment methods for higher customer retention and loyalty.

## Scalable global solution

Integrate once to enable global payments everywhere, now and in the future through our Unified Payments API. Offer key local payments and digital wallets, unlock global coverage for growth opportunities.

## Payments your way

### Leading enterprise technology

- ✓ Customizable Infrastructure
- ✓ Single platform, proprietary technology

### Bespoke expert service

- ✓ Personalised white glove service
- ✓ Access to experts in local markets

### Local success, globally

- ✓ Compliance with local regulations
- ✓ Strong relationships with schemes and issuers

“We’re enjoying 95% payment approval rates with Checkout.com. This is an uplift of 10% compared to what we achieved with our previous provider and it's unlocking hundreds of thousands of dollars a year in revenue.

Ruslan Barenboym  
Head of FinCrime and Business Ops at Curve
