

Project Engineer Position

We are looking for the right person to join our team. This is a great opportunity to join a leading blue tech company that designs, engineers and manufactures wastewater treatment equipment for the industrial and commercial space.

Duties may include, but are not limited to:

- Generate equipment skid drawings for submittal and manufacturing purposes utilizing Solidworks and or AutoCAD.
- Generate plant layouts and P&ID's utilizing AutoCAD.
- Assemble complete submittal packages and IO&M's for equipment packages and systems.
- Work with vendors to select equipment, track orders and manage issues as they arise.
- Work with customers and engineers regarding technical and commercial issues
- Assist with on-site commissioning of equipment/systems
- Travel as necessary
- Strong written and verbal communication skills
- Organized and the ability to meet deadlines
- Experience with MS Word, Excel & Outlook
- Knowledge of wastewater treatment solutions is preferred but not required.

Requirements:

- Minimum 3 years' experience
- Bachelors or Associate degree in Engineering or similar preferred

Extensive Benefits package including 401K, Health & Dental Insurance as well as paid vacation.

Job Type: Full-time
