# Creative Angels Fashion Benefits Review

When the welfare informed me about this proposal and we read through it I thought, "WOW, interesting something to look forward to, meeting new people and friends and learning something new.

On the day of the event feeling super excited and curious.

As the event started, I felt nervous, excited and didn't know what to expect. Meet Devashnie and listening to her amazing story of how she started this benefit and everything she went through, it's all inspiring. As the day went on, meeting the designers, introducing ourselves. I must say all the activities were fun and I utterly enjoyed myself.

The designing part for the competition was something new and fun and I didn't think of it as a competition. My design was just the idea of the dress that I wanted and loved (My dream dress), it also made me feel like a real designer. My grandma working at a factory going to work with her on Saturdays or during the holiday was interesting and I learned quite a lot by her and also having Consumer Studies as a subject at school we also learn about fabrics and the designing elements and principles when choosing clothes.

The camera and acting was also a lot of fun and I love being a drama queen so it was super exciting and interesting for me and it was surely something I'll never forget.

The whole day's event was interesting and fun and I definitely learned something and the memories

will forever remain in my brain and heart.

Being announced as a winner was shocking, unexpected and exciting, I was probably jumping around for about 5 minutes due to excitement, it's also an honour to be a winner and I'm super excited for what's coming, my dress being designed and seeing and actually wearing the outcome of the design.

Thank you very much for a wonderful experience and opportunity and keep up with the good work and inspiring us youth.

Saskia Martin  
XOXOXOXO

At first it was a big surprise for me to hear that I was one of the winners.

I could not believe it cause I've never won something. But I'm glad I've got the opportunity to prove myself to someone. I've underestimated myself to say I can do nothing but now I see everything is possible if you believe.

I just want to say thank you to everyone who believed in me.

Thank you very much.
