

MassVentures finds, funds, and fosters early stage deep tech that fuels economic growth across the Commonwealth.

We're a  
**43-year-old**  
evergreen  
fund  
with **top**  
quartile  
returns

Our team has **decades of deep tech, private investment, and operating success**, and our extensive network includes more than 500 partners in bioscience, deep tech, business development, and venture capital.

**Deep tech is at the core of the Commonwealth's innovation ecosystem.**

It includes but is not limited to:

Health Security  
Artificial Intelligence  
Cyber Security  
Electronics

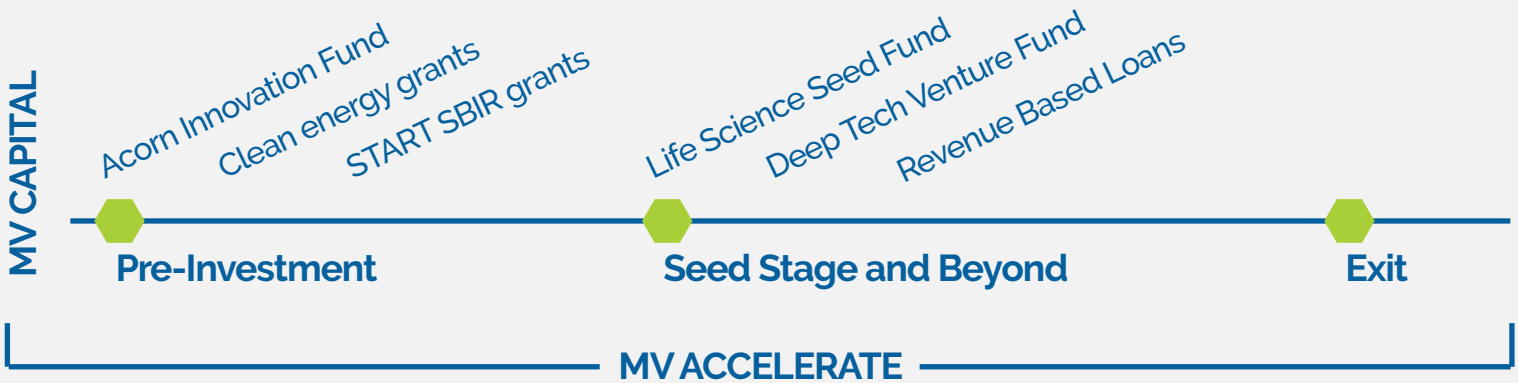

Advanced Manufacturing  
Biotechnology  
Photonics  
Synthetic Biology

Robotics  
Physical Security  
Quantum computing  
IoT

Deep tech innovations are often radical and may create new markets or disrupt existing ones. Deep tech companies often address big societal and environmental challenges and have the potential to impact everyday life.

## We are a vital, comprehensive resource for early stage deep tech innovators and investors

Our platform is end to end —from pre-investment through exit—offering technical assistance, non-dilutive seed stage funding, follow-on funding, and investment.

“*MassVentures has been with us from the start, arming us with the capital, experience, mentoring and network to help our transition to a high-growth company. ... Companies need this type of support to move from a research-driven company to commercialization.*

*—Reshma Shetty, Co-founder of Ginkgo Bioworks*

## MV Accelerate Programs

**MassVX:** Matching academic spinouts with 500 vetted entrepreneurial champions.

**Partnership Program:** Free legal and other services, and access to technology platforms.

**Commercialization Academy:** On-line incubator (launching in 2021) for first time founders.

**MATTO:** The Massachusetts Association of Technology Transfer Offices serves 34 research institutions.
