

Hearing Care Clinical Services. Test in minutes.

The otoTune® Assistant is an AI driven device that allows you to conduct a calibrated hearing test in 3 minutes. Soundwave Hearing has developed a quick and easy solution to test your patient's hearing.

TEST HEARING IN 3 MINUTES

The only patented 2-button hearing test. Automatically tests both ears at the same time, delivering quick, accurate results.

A SIMPLE TEST

1. Clinician gives directions to the consumer
2. Consumer takes a 3-minute test with calibrated headphones
3. Clinician explains the results and recommends Sontro® OTC Hearing Aids

STATE-OF-THE ART MACHINE LEARNING

The otoTune Assistant uses machine learning algorithms to intelligently select which hearing frequency and intensity regions should be tested to determine a patient's hearing loss efficiently and automatically.

ABOUT US

At Soundwave, our mission is to help people lead a healthier life by innovating quality hearing care that is simple, affordable and convenient. Let us partner with you to help you provide better hearing to your patients.

It's Simple with Soundwave

Unlimited Testing and a 90-day Warranty
