

TEAM ENGINE

Platform Overview

OVERVIEW

Team Engine is a team management software platform that helps blue-collar companies develop great teams of employees through a suite of intelligent communication, hiring, and management tools.

"Team Engine not only helps us fill our most valuable roles with highly-qualified people, they give us the tools we use every day to keep our teams engaged, informed, and productive."

- Tom McLaughlin, A&A Safety

BUILD BETTER TEAMS

- **Intelligent Hiring Assistant** engages applicants by email and text and ranks them by fit and responsiveness
- **Smart Sourcing Engine** gets higher-quality applicants who aren't on job boards by running targeted ads
- **Referral Automation** encourages your best employees to recommend more pre-vetted people
- **Automated Messages** and interview confirmations move people through the hiring process quickly

LEAD & RETAIN THE BEST

- **All-in-One Messaging Platform** for texts, emails, and calls so you can reach employees wherever they are
- **Announcements** quickly get information to your entire workforce or small groups and replies go to your computer
- **Automated & Scheduled Surveys** gather individual responses for feedback, uniform sizes, and exit interviews
- **Multi-Language Support** ensures everyone sees messages in the language of their choice, no matter the author

AMERICA'S GREATEST COMPANIES
USE TEAM ENGINE
